“

We introduced ourselves as Professional Training Institute known as PTi. Earlier, we are the only institute in Eastern India who was providing Chip and Component level educational training as well as servicing. PTi has its own huge ESD TRC Lab equipped with latest Imported Machines and Tools. Our objective is to be build quality into operations, to ensure zero defect services and thereby achieve excellence in organizational performance.

introduction

Every year thousands of Desktops, PCs, Servers, Printers, Monitor and Laptops etc are being sold and these Electronics products becomes faulty/defective during warranty as well as after warranty, we are here to serve the best quality solution under one roof.

We are specialized in repair of Desktop and Laptop Motherboard and have major strategic tie up with Motherboard manufactures/ Importers / Dealers of several companies of peripherals and components. Our senior engineers are specially trained by these manufactures up to level 4 (L4) standards and critically tested on performance. Our TRC Engineers are completely updated with ESD norms and its precautions so that they can take care of the spares given for repair by our customers/clients. PTi is powered by a group of competent and dedicated professionals with-in-depth knowledge and experience in their respective areas of specializations.

Continuously our RND team is in action to provide the finest repairs for our customers with an immense focus on QUALITY. They are on their toes to get the latest updates on the new coming technologies and update our engineers on all locations.
